; INSTRUCTIONS

; If you have a semi colon infront of the line of code it will disable it. TEA OP OUT !
; Every line of code needs +CVars= infront of it to work.
; Make sure they have +CVars= before the code

; Enable to remove leaves and bushes
; Warning: Also remove some world meshes (rocks, metal nodes, crystals, etc.)
+CVars=Foliage.UseOcclusionType=0
; Need to be disabled if the above variable is enabled, otherwise can be enabled
;ShowFlag.VolumelightingSamples=0
; Enable to reduce a lot of particles (smoke grenade, flamethrower smoke, etc.)
; Warning: Poison wyvern and basilisk poison balls are harder to see
+CVars=FX_MaxCPUParticlesPerEmitter=1
; Enable to remove water surface
; Warning: Also remove a lot of things (structure placement overlay, parasaur red detections, weap
on projectiles, dino projectiles, loot crate beam, etc.)
